*Supplemental Terms, Conditions, and Disclosures*

**DISCLOSURE**

Clients selecting the HSA Investment Account are urged to carefully weigh the advantages and disadvantages of investing HSA funds in the Investment Options versus holding them in their American Chartered Bank HSA Checking Account. Investors should carefully read the Investment Policy, available at [www.americanchartered.com](http://www.americanchartered.com), together with the prospectus from each mutual fund selected before investing or sending money. These documents provide information regarding investment objectives and risk, as well as charges and expenses which may be imposed for early liquidation of mutual fund investments, etc. There are no guarantees that the Investment Options will make money. Additional contributions cannot be made to an HSA account to replace any losses that result from investing. Please keep all of these factors in mind when considering which account is right for you.

The Bank engages the support of Devenir Investment Advisors, LLC, a registered investment advisor and Devenir, LLC, a Broker Dealer member of NASD/SIPC (collectively, "Devenir"), to select the HSA Investment Account Investment Options. Devenir screens the Investment Options offered using a number of criteria which include, but are not limited to total fund performance, Morningstar® ranking relative to other funds with similar investment objectives, and track record. Devenir periodically reviews the Investment Options, and may recommend changes in the Investment Options being offered if a particular fund no longer meets the selection criteria. Participation in the Investment Options is voluntary.

Under no circumstances is American Chartered Bank offering any of the HSA Investment Account Investment Options, and the Bank makes no representations with respect to the Investment Options offered.

American Chartered Bank disclaims any and all liability, contingent or otherwise, for the performance of the Investment Options. Please see your financial advisor for personal investment advice.

***Investment Options are not FDIC insured, may lose value, and are not guaranteed by the Bank.***
